Pre-Contractual Data Information: Connected Product (EU Data Act)

Product	FLUKE 805 FC
Firmware / HW	Portable handheld vibration meter with built-in display and Bluetooth Low Energy connectivity. Latest firmware version is 3.05.
Connectivity / Interfaces	FLUKE 805-FC: Bluetooth Low Energy (BLE) for connection to Fluke Connect mobile application Micro-USB (USB 2.0) for connection to a PC
Contact	privacypolicy@fluke.com

1) Product data

- **Physical measurements:** Handheld vibration measurements captured on rotating machinery. Support for acceleration, velocity, and displacement-related vibration readings, including units such as g, m/s^2, in/s, mm/s, mils, and micron.
- **Device identifiers:** Instrument identity as Fluke 805 FC Vibration Meter; product and tool identifiers used in Fluke systems; device serial number and model identification on the product. BLE service identifiers and characteristics are used during communication with the mobile app.
- **Status / telemetry:** Connection state, live readings, save status, and downloaded measurement availability during BLE sessions.
- **Events & diagnostics:** None provided by device.
- **Configuration values:** Machine-related setup values associated with asset workflows can include machine category and RPM grouping in connected Fluke workflows. User-entered tool-specific settings saved with assets for 805-related use in Fluke systems.
- **Other:** Saved measurements in app context, asset association data, reports, shared results, and synced records where Fluke Connect workflows are used.

Estimated volume (typical): Internal flash memory, up to 3,500 measurements.

Collection Frequency: On event — a user takes a measurement and saves it. Continuous — live readings may be displayed during an active connected session.

For general operational guidance, please refer to the product's user manual.

2) Data formats

- **On export:**
  - Data stored in encrypted TXT files, decrypted and made available via a free Microsoft Excel template app on a PC.
  - Also exported using the Fluke Connect app: CSV export.
- **Schema / data dictionary:** self-describing .CSV files

3) Storage & retention

- **On-device storage:** Yes. The meter stores setups and measurements locally for later transfer to the app. Data are available for download from the device.

- **Cloud / servers:** Possible when used with Fluke Connect workflows (customer choice). Measurements can be transmitted to the Fluke Connect app, stored, viewed, and synced in connected workflows.
- **Retention:** On device: under customer control. In app / cloud workflows: under customer control via Fluke Connect.
- **Deletion / anonymisation:** Setups and measurements can be deleted from the device. The meter does not support automatic time-based deletion or anonymization.

4) User access, export & erase

- **Where:** On the Fluke 805 FC device and through supported Fluke Connect mobile application workflows. In addition, access to meter data through supported Excel template app on a PC.
- **How:**
  - **Option 1:** Users take a measurement on the meter, save it on the device, and transmit it to the Fluke Connect app when connected. Reviewed materials also indicate live readings, save, sync, share, reporting, and download workflows in supported app integrations.
  - **Option 2:** Users take a measurement on the meter, save it on the device, and transmit it to the PC when connected.
- **Export formats:**
  - Via the Fluke Connect mobile app: CSV.
  - Encrypted TXT files can be opened by the Microsoft Excel template app, freely available here: **https://www.fluke.com/en-us/support/software-downloads/fluke-805-vibration-meter-firmware-and-trending-template**
- **Limits / rate-limits:** None.
- **Request erasure:** Deletion is managed by the user within those environments.

5) Data Sharing with Third Parties

To the extent Fluke has access to the relevant data, you may authorize a third party to access such data by contacting Fluke using the details set out above, specifying the recipient and purpose of the data sharing. You may view and revoke authorized data transfers at any time via the same contact details.

Where data is stored locally on your device or within your own environment and is not accessible to Fluke, you are responsible for granting third-party access directly.

6) Terms of service, contract term & termination

As provided in the quote, order form, or agreement between you and Fluke. If you purchased the product through a distributor or reseller, the terms of service, contract term and termination are as agreed between you and that seller.

7) How Data Holder uses the data

If Fluke has access to any data generated through your use of a Fluke connected product or related service, this will be used in accordance with the applicable agreement between you and Fluke, through which you purchase Fluke’s products or services. The relevant Fluke entity details will be specified in the quote or order form as applicable.

Fluke may engage third parties to act as service providers and perform certain tasks on its behalf, such as processing or storing data generated in connection with your use of a Fluke connected product or related service. For more information, please visit **https://www.fluke.com/en-us/fluke/privacy-policy**

8) Trade secrets

No trade secrets are contained in the data.

9) Right to lodge a complaint

If you have a complaint relating to your Fluke connected product or related service, or the Data Act in general, you can contact Fluke using the details set out above. You also have the right to lodge a complaint with the relevant competent authority designated under Article 37 of the EU Data Act, in the Member State of your habitual residence, place of work or establishment.
