Pre-Contractual Data Information: Connected Product (EU Data Act)

Product	1760 3-Phase Power Quality Recorder
Firmware / HW	V2.0.4
Connectivity / Interfaces	Ethernet, USB, RS232 / Modem
Contact	privacypolicy@fluke.com

1) Product data

Physical measurements

- Voltage, current, auxiliary voltage, power, energy, PQ parameters (harmonics, flicker, …), PQ events and associated RMS and waveform recordings are captured per logging session in binary files.

Device identifiers

- Model is 1760 3-Phase Power Quality Recorder.
- Serial number on the device.

Status / telemetry

- No telemetry is provided for device operation.

Events & diagnostics

- No events or diagnostic logs available.

Configuration values

- Device configuration (timezone, connection setup, device name, username and password) is kept in flash memory.
- Measurement configuration and measurement data are kept in flash memory.

Estimated volume (typical): the measurement size is user configurable up to 2 GB.

Collection Frequency: measurement data can be generated periodically in near real time at intervals from 0.01 seconds to 24 h and upon occurrence of events. Logging sessions can be started and ended manually or on a pre-programmed date/time.

For general operational guidance, please refer to the product’s user manual.

2) Data formats

Measurement analysis and export via companion PC software Fluke PQ Analyze.

- **On device:** proprietary binary file format <session_name>.*
- **In transit:**
  - Measurement data download to PQ Analyze software: proprietary, binary format.
- **On export (PQ Analyzer software only):** custom export to CSV, Microsoft Excel and Word.

3) Storage & retention

- **On-device storage:** storage capacity — one logging session up to several months depending on customer settings; overwrites oldest data or stops when full.
- **Cloud / servers:** no cloud / server connectivity.
- **Retention:**
  - On-device measurement data retention is under user control (deletion in PQ Analyzer either with Service – Advanced Settings, or an initialization of a new measurement).
  - Configuration settings of a logging session remain until overwritten or manually deleted.
- **Deletion/anonymisation:** auto-delete oldest data (circular buffer) – when selected; deletion by the user.

4) User access, export & erase

Access data:

- Transfer session data from the device to Fluke PQ Analyze software:
  - **Via USB flash drive:** auto-copy session data to a USB stick, import to PQ Analyze.
  - **Via PQ Analyze:** connect to the device, download data.

Export (with PQ Analyze software):

- Measurement data export:
  - Load the data in PQ Analyze.
  - Configure the export in Options – Export Setup.
  - Select ASCII Protocol Report Generator.

Erase:

- **On device:**
  - Connect PQ Analyze to the device.
  - Go to Service – Advanced Settings.
  - Select “5. Stop Measurement, Delete Measurement Data” and follow the instructions to delete the data.
- **Measurements, reports and export files on the local PC:**
  - In Windows File Explorer, navigate to the user folder of PQ Analyze (typically located in Documents of the Windows user).
  - Delete the measurement files in \Download.
  - Delete the exported files and reports in \Data.

5) Data Sharing with Third Parties

To the extent Fluke has access to the relevant data, you may authorize a third party to access such data by contacting Fluke using the details set out above, specifying the recipient and purpose of the data sharing. You may view and revoke authorized data transfers at any time via the same contact details.

Where data is stored locally on your device or within your own environment and is not accessible to Fluke, you are responsible for granting third-party access directly.

6) Terms of service, contract term & termination

As provided in the quote, order form, or agreement between you and Fluke. If you purchased the product through a distributor or reseller, the terms of service, contract term and termination are as agreed between you and that seller.

7) How Data Holder uses the data

If Fluke has access to any data generated through your use of a Fluke connected product or related service, this will be used in accordance with the applicable agreement between you and Fluke, through which you purchase Fluke's products or services. The relevant Fluke entity details will be specified in the quote or order form as applicable.

Fluke may engage third parties to act as service providers and perform certain tasks on its behalf, such as processing or storing data generated in connection with your use of a Fluke connected product or related service. For more information, please visit **https://www.fluke.com/en-us/fluke/privacy-policy**

8) Trade secrets

No trade secrets are contained in the data.

9) Right to lodge a complaint

If you have a complaint relating to your Fluke connected product or related service, or the Data Act in general, you can contact Fluke using the details set out above. You also have the right to lodge a complaint with the relevant competent authority designated under Article 37 of the EU Data Act, in the Member State of your habitual residence, place of work or establishment.
